CAREER SUMMARY

Software developer with a foundation in Java, C, SQL, Networks and problem-solving. Built practical projects including a Skill Endorsement System, reminder application, and freelancing platform. Looking to contribute to meaningful software projects while continuing to grow through real-world experience.

TECHNICAL SKILLS

Languages	C, Java
Data Structures & Algorithms	Arrays, Strings, Searching, Sorting
Database	MySQL
Core Concepts	OOP, DBMS, Computer Networks
Design	UI/UX
Tools	GitHub, Visual Studio Code, Figma

PROJECTS

Skill Endorsement System

- Developed a web application that allows users to add, showcase, and validate technical skills through peer endorsements.
- Implemented secure user authentication using JWT and managed skill and endorsement data with MongoDB.
- **Tech Stack:** HTML, CSS, JavaScript, Node.js, Express, MongoDB, JWT.

RemindX

- Developed a full-stack task reminder application that displays the exact task details when an alarm rings, reducing user confusion.
- Implemented CRUD operations for task management and stored reminder data securely using MongoDB.
- **Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB.

Freelancing Hiring Platform

- Developed a freelance marketplace where clients can post projects and freelancers can bid, communicate, and submit completed work securely.
- Implemented user authentication, project management, and real-time communication features for seamless collaboration.
- **Tech Stack:** HTML, CSS, JavaScript, JWT.

EDUCATION

Bannari Amman Institute of Technology, Sathyamangalam **2023–Present**

- CGPA: 8.26 (up to 6th Semester)

Bharani Park Matric Higher Secondary School, Vennamalai **2022–2023**

- HSC: 89.83%

CERTIFICATIONS & ACHIEVEMENTS

- Deloitte – Data Analyst Job Simulation
- NPTEL – Introduction to Industry 4.0 and Industrial IoT (85%)
- The Linux Foundation – Introduction to Node.js
- NPTEL – Introduction to Internet of Things (73%)
